Public Employees Benefits Agency Revolving Fund

Financial Statements

Year Ended March 31, 2011

Independent Auditor's Report

To: The Members of the Legislative Assembly of Saskatchewan

I have audited the accompanying financial statements of the Public Employees Benefits Agency Revolving Fund, which comprise the statement of financial position as at March 31, 2011, and the statements of operations, the changes in net debt, and changes in accumulated net expenditure for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles for Treasury Board's approval, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

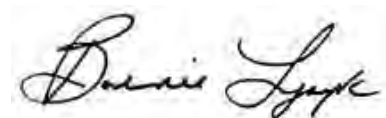

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Public Employees Benefits Agency Revolving Fund as at March 31, 2011, and the results of its operations, changes in its net debt, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Public Employees Benefits Agency Revolving Fund
Notes to the Financial Statements
March 31, 2011

1. Authority and Definition of Accounting Entity

The Public Employees Benefits Agency Revolving Fund (Revolving Fund) was established under Section 65 of *The Financial Administration Act, 1993* to account for the administration costs of the Public Employees Benefits Agency (PEBA). These costs are allocated to the various pension plans and benefit programs administered by PEBA in accordance with the policy described in Note 2(c).

2. Significant Accounting Policies

Pursuant to standards established by the Public Sector Accounting Board, the Revolving Fund is classified as an other government organization. These financial statements are prepared in accordance with Canadian generally accepted accounting principles applicable for governments. These financial statements do not present a Statement of Cash Flows because this information is readily apparent from the Statement of Changes in Accumulated Net Expenditure. The following policies are considered significant:

a) Net Financing Requirements

The net financing requirement is the cash flow from (to) the General Revenue Fund. It represents the total annual financing requirements resulting from net capital acquisitions, working capital changes and net cash flow from operations.

b) Accumulated Net Expenditure (Recovery)

Expenditures of the Revolving Fund are made directly out of the General Revenue Fund (GRF) and receipts are deposited directly into the GRF. The excess of the accumulated net expenditures over accumulated receipts is the accumulated net expenditure balance or outstanding borrowing from the GRF.

The accumulated net expenditure (recovery) of the Revolving Fund includes the aggregate of net financing requirements for all fiscal years resulting from the Revolving Fund's net capital acquisitions, changes in working capital and net cash flow from operations.

Effective April 1, 2010, the Accumulated Net Expenditure of the Revolving Fund is recorded as a non-financial asset of the General Revenue Fund (GRF). This change has minimal impact on the accounting for the Revolving Fund as the net advances for expenditures and recoveries are recorded within the GRF.

c) Revenue – Administration Fees

The costs incurred by PEBA in the administration of the various pension plans and benefit programs are billed on a monthly basis to these plans and programs, as follows:

- i) Costs directly relating to a particular pension plan or benefit program are charged to that plan or program.
- ii) All other costs are charged to the various pension plans and benefit programs using a formula primarily based on employees' time required to administer these plans and programs.

d) **Tangible Capital Assets**

Tangible capital assets are recorded at cost less accumulated amortization. Amortization is recorded commencing the year in which the assets are placed in service, on a straight-line basis, over their estimated useful lives as follows:

Computer hardware and software	5 years
System development and furniture	10 years
Leasehold improvements	over the term of the lease

Work in progress assets include system development and leasehold costs incurred for systems not yet placed into service.

e) **Use of Estimates**

These statements are prepared in accordance with Canadian generally accepted accounting principles applicable for governments. These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, if any, at the date of the financial statements and the reported amounts of revenue and expenses during the period. The amortization of tangible capital assets is subject to such estimates and assumptions. Actual results could differ from those estimates. Differences are reflected in current operations when identified.

3. Authorized Financing

Subsection 65(12) of *The Financial Administration Act, 1993* provides for the maximum accumulated net expenditure to be set by order of the Lieutenant Governor in Council. The maximum amount has been set at \$5,800,000 by Order in Council 116/2009.

4. Tangible Capital Assets

5. Related Party Transactions

Included in these financial statements are transactions with various Saskatchewan Crown corporations, ministries, agencies, boards, and commissions related to the Revolving Fund by virtue of common control by the Government of Saskatchewan. These financial statements also include transactions with non-Crown corporations and enterprises subject to joint control or significant influence by the Government of Saskatchewan collectively referred to as "related parties".

Expenses include \$1,274,127 (2010 - \$1,820,498) that the Ministry of Finance incurred on PEBA's behalf for rent and certain administrative services provided to the Revolving Fund. The Revolving Fund bills the pension plans and benefit programs administered by PEBA in accordance with subsection 64(7) of *The Financial Administration Act, 1993*, to recover those expenses. Amounts received by the Revolving Fund relating to these costs are paid to the General Revenue Fund in accordance with subsection 65(11) of *The Financial Administration Act, 1993*.

In accordance with established government policy, the Revolving Fund has not been charged with certain costs including financing and certain administrative costs. These costs have been absorbed by various ministerial appropriations and therefore, no provision for such costs is reflected in these financial statements.

Routine operating transactions with other related parties are recorded at agreed upon rates and are settled on agreed upon terms.

The Revolving Fund has lease commitments with related parties requiring minimum lease payments of:

2012	\$ 929,316
2013	929,316

The following table summarizes the Revolving Fund's related party transactions.
