Ministry of Finance

Saskatchewan Water Corporation Retirement Allowance Plan

Introduction

The Saskatchewan Water Corporation (the Corporation) established the Saskatchewan Water Corporation Retirement Allowance Plan (the Plan) on April 1, 1999 for the purpose of providing certain retirement benefits to out-of-scope employees of the Corporation.

The Plan is not registered as a pension plan under the *Income Tax Act* (Canada). The Corporation has not established a trust nor does it hold property for the specific purpose of providing benefits to the participants. Benefits are funded out of current operations of the Corporation.

The Corporation managed the Plan from April 1, 1999 to November 16, 2004. On November 16, 2004, an Order in Council designated the Plan as a benefit program to be operated, administered and managed by the Public Employees Benefits Agency (PEBA).

Enrolment

The Plan includes all out-of-scope employees of the Corporation. As at December 31, 2014, there were 46 (2013 - 42) active members in the Plan.

Benefits

Members of the Plan retiring from the Corporation, in accordance with the provision of the pension plan they are enrolled in, are paid a retirement allowance of two (2) days pay for each year of service or portion thereof to a maximum of forty-three (43) days pay. The retirement allowance is calculated at the employee's regular rate of pay at the date of retirement.

Management's Report

To the Members of the Legislative Assembly of Saskatchewan

As administrators of the Saskatchewan Water Corporation Retirement Allowance Plan, we are responsible for the preparation and presentation of the following financial statements in accordance with Canadian Accounting Standards for Pension Plans as outlined in the CPA Canada Handbook, section 4600, pension plans. For matters not addressed in section 4600, International Financial Reporting Standards (IFRS) have been followed.

The significant accounting policies adopted in the preparation of the financial statements are fully and fairly disclosed in the financial statements.

We believe the Saskatchewan Water Corporation Retirement Allowance Plan has a system of internal control adequate to provide reasonable assurance that the accounts are faithfully and properly kept to permit the preparation of accurate financial statements in accordance with Canadian accounting standards for pension plans.

I enclose the financial statements of the Saskatchewan Water Corporation Retirement Allowance Plan for the year ended December 31, 2014 and the Provincial Auditor's report on these financial statements.

Regina, Saskatchewan
March 26, 2015

Dave Wild
Associate Deputy Minister
Public Employees Benefits Agency
Ministry of Finance

Actuarial Opinion

With respect to the SaskWater Retirement Allowance Program, I have prepared an actuarial valuation as at December 31, 2014, for the purpose of determining the necessary actuarial information for financial statement reporting in accordance with IFRS. In my opinion, for the purpose of this actuarial valuation:

- The data on which this valuation is based are sufficient and reliable;
- Where applicable, the assumptions have been adopted as management's best estimates for accounting purposes and consequently I have not rendered an opinion on them; however, the assumptions are, in aggregate not unreasonable, when considering the circumstances of the plan and the purpose of the valuation;
- The actuarial cost method employed is appropriate; and
- The valuation conforms with the requirements of IFRS.

Nonetheless, emerging experience differing from the assumptions will result in gains or losses which will be revealed in subsequent valuations.

This report has been prepared and this actuarial opinion has been given in accordance with accepted actuarial practice in Canada.

Retirement Allowance Plan**

Financial Statements

Year Ended December 31, 2014

Independent Auditor's Report

To: The Members of the Legislative Assembly of Saskatchewan

I have audited the accompanying financial statements of the Saskatchewan Water Corporation Retirement Allowance Plan, which comprise the statements of financial position as at December 31, 2014, the statement of changes in net assets available for benefits and the statement of changes in benefits obligation for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for pension plans for Treasury Board's approval, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Saskatchewan Water Corporation Retirement Allowance Plan as at December 31, 2014, and the statement of changes in net assets available for benefits and the statement of changes in benefits obligation for the year then ended in accordance with Canadian accounting standards for pension plans.

**Saskatchewan Water Corporation
Retirement Allowance Plan
Notes to the Financial Statements
December 31, 2014**

1. Description of the Plan

The Saskatchewan Water Corporation (the Corporation) established the Saskatchewan Water Corporation Retirement Allowance Plan (the Plan) on April 1, 1999 for the purpose of providing certain retirement benefits to out-of-scope employees of the Corporation.

The Plan is not registered as a pension plan under the *Income Tax Act (Canada)*. The Corporation has not established a trust nor does it hold property for the specific purpose of providing benefits to the participants. Benefits are funded out of current operations of the Corporation.

The Corporation managed the Plan from April 1, 1999 to November 16, 2004. On November 16, 2004, an Order in Council designated the Plan as a benefit program to be operated, administered and managed by the Public Employees Benefits Agency (PEBA). An agreement has been established between PEBA and the Corporation, which specifies the administrative services that the Corporation will provide.

The following description is a summary only. For more complete information, reference should be made to the Plan document.

Eligibility

The plan includes all out of scope employees of the Corporation. As at December 31, 2014, there were 46 (2013 - 42) active members in the plan.

Benefits

Members of the Plan retiring from the Corporation, in accordance with the provisions of the pension plan they are enrolled in, are paid a retirement allowance of two (2) days pay for each year of service or portion thereof to a maximum of forty-three (43) days pay. The retirement allowance is calculated at the employee's regular rate of pay at the date of retirement.

2. Significant Accounting Policies

Effective January 1, 2011 the Plan adopted Canadian accounting standards for pension plans. For accounting policies that do not relate to its benefit obligations, the financial statements comply with International Financial Reporting Standards, to the extent that these standards do not conflict with Canadian accounting standards for pension plans. These standards have been implemented retroactively.

3. Benefits Obligation

The benefits obligation of the Plan is receivable from the Corporation and will be funded by the Corporation as eligible employees retire. The present value of the accrued benefits obligation was determined using the projected benefits method prorated on service and the best estimate assumptions of the Corporation's management. Plan experience is the difference between the expected and actual benefits obligation and is recognized as an increase or decrease in the statement of changes in benefits obligation. Aon Consulting Inc. performed an actuarial valuation as at December 31, 2014 and December 31, 2013 to determine the actuarial present value of the benefits obligation. The effective date of the next required actuarial valuation is December 31, 2015.

The benefits obligation is based on many assumptions about future events. Actual experience may vary significantly from the long-term assumptions used. The actuarial valuation is based on the following assumptions:

	2014	2013
Discount rate	3.60%	4.25%
Inflation rate	2.50%	2.50%
Salary increase	3.00%	3.00%
Termination rate up to age 49	5.00%	5.00%

Retirement - members of the Capital Pension Plan - at age 60

- members of the Public Service Superannuation Plan - at the earlier of age 60 (20 years of service), age 65 (5 years of service) or 35 years of service

The following illustrates the effect of changes in these assumptions on the benefits obligations:

Assumption	Change Made	Change in Obligation at December 31, 2014	Percentage change in Obligation
Annual termination rate	Plus 0.5%	-2,500	(1.0%)
	Minus 0.5%	2,600	1.1%
Discount rate	Plus 0.5%	-7,700	(3.2%)
	Minus 0.5%	8,300	3.5%
General salary increase	Plus 0.5%	8,300	3.5%
	Minus 0.5%	-7,800	(3.3%)

The actuarial present value of the benefits obligation is long-term in nature and there is no market for settling this obligation. Therefore, determination of the fair value is not practicable.

4. Financial Risk Management

The nature of the Plan's operations result in a statement of financial position, changes in net assets available for benefits, and changes in benefits obligations. As benefits are funded out of current operations of the Corporation, the plan's financial risks relate primarily to credit risk. The maximum credit risk to which it is exposed at December 31, 2014 is limited to the carrying value of its contributions receivable from the Corporation.

5. Related Parties

Included in these financial statements are transactions with the Corporation who is related to the Plan by virtue of common control by the Government of Saskatchewan.

The Plan has received the use of office space and administrative services from the Corporation at no charge. Additionally, PEBA provides administrative services to the Plan for an administration fee which is paid by the Corporation.
