

Appendix V- Questionnaire

Stakeholders were asked to provide comment on the following questions:

1. In your (or your organization's) view, does the composition of the Municipal Employees' Pension Commission remain appropriate?
2. If not, in what way should the composition of the Commission be amended and what is the rationale for any suggested changes?
3. Are there any associated administrative matters you believe should be considered as part of this review? If so, what are they and why does your organization feel the matter is important?
4. What suggestions might you have as to the best way to consult with pensioners who do not have a representative organization?
